Perinthalmanna, Kerala

Percentage : 92%

SKILLS

Technical Skills :

HTML, CSS, JavaScript, React, C++, Python

Soft Skills:

Strong communication, Team collaboration, Problem-solving, Time management, Adaptability.

PROJECTS

DASS App

A mental health assessment app built using Flutter, designed to measure depression, anxiety, and stress levels through standardized questionnaires. It provides users with personalized insights to promote mental well-being.

Web Applications

Developed a range of projects using React, including a budget calculator, discount calculator, and a BMI calculator. Additionally, created engaging websites utilizing parallax effects and GSAP animations. Each project emphasizes intuitive design and functionality, offering practical solutions for everyday challenges.

Media Player App

Developed a media player application using React, HTML, CSS, Bootstrap, and JSON server. This app allows users to add YouTube videos, manage their video library, track watch history, and categorize content. The project emphasizes a seamless user experience and efficient video management features.
